JOIN US FOR OUR **2027 ANNUAL MEETING**
June 24 – 27
THE CLOISTER — SEA ISLAND, GA

FEATURED Speaker:

DR. RICARDO KERN

Firmly entrenched in the high aesthetic requirements of Brazilian dentistry, I am focusing my work on the demanding disciplines of soft tissue design and reconstruction, with extensive experience in immediate implant placement with temporization, from single-tooth to full-arch rehabilitation.

I have been invited to lecture and deliver training courses on soft tissue design, preservation, and reconstruction) at several post-graduate courses, as well as at congresses and seminars in America and overseas.

REFINING GINGIVAL RECESSION TREATMENT: AN INTEGRATED SURGICAL-RESTORATIVE APPROACH WITH THE SMILE TECHNIQUE

8 HOURS OF CE LECTURE, SUBJECT CODE 490

COURSE OVERVIEW

This course presents a comprehensive approach to treating gingival recessions, integrating periodontal plastic surgery and restorative strategies to achieve predictable functional and esthetic outcomes.

From diagnosis and case selection to surgical planning and restorative management, participants will explore the complete clinical workflow for treating recession defects, with particular emphasis on optimizing soft tissue quality, volume, contour, and root coverage.

Special attention will be given to the SMILE technique (SupraMuscular Incision for Layering Engagement), including its biological rationale, indications, surgical principles, and clinical applications. Through a step-by-step, case-based approach, the course will demonstrate how surgical and restorative procedures can be strategically combined to manage both simple and complex recession defects and enhance long-term treatment outcomes.

The Cloister | Sea Island, GA

June 24-27, 2026
