

# Mountain Perio

## Periodontics • Dental Implants

[www.mountainperio.com](http://www.mountainperio.com)

Mountain Perio is recruiting an associate Periodontist for multiple locations in Hendersonville, Asheville, and Brevard. We are interested in talking with anyone who wants to be an associate and/or interested in a path to partnership. We are looking for a knowledgeable and engaged professional to join our established business offering specialized dental services. Graduating residents or experienced periodontists looking to relocate to our mountain town will be considered.

Mountain Perio has been providing high-quality care for over 30 years. Our full-service periodontics practice currently consists of 3 Periodontists and 4 hygienists. These providers are supported by a dependable team of assistants and office staff. We collectively provide comprehensive care to our patients including implants, CBCT imaging, and LANAP therapy. We offer a competitive compensation package with flexible work schedules, and opportunities for professional growth and development. We have a very strong referral base and there is growing demand for our comprehensive services.

The quality of life in the Asheville area is unmatched. The community, climate, urban events, and outdoor activities have attracted many in recent years. We want to thrive professionally together as a team, while enjoying a work life balance.

For more information about our locations, providers, and the services we offer please see our website and contact us. Please include a resume in your email with further inquiries to Dr. Andrew Harrell at [harrelldds@mountainperio.com](mailto:harrelldds@mountainperio.com)
