

Southern Academy of Periodontology
2020 Annual Meeting/100 Year Anniversary

Speaker: John Russo, DDS, MHS

August 19, 2019

Title: Dynamic Navigation Surgery, Is it Worth the Effort?

Speaker Biography: Dr. John Russo has been in private practice in Sarasota, Florida since 1993. He is Past President of the Southern Academy of Periodontology and is currently in his second term representing District Three on the Board of Trustees for the American Academy of Periodontology. He has been teaching bone and soft tissue grafting and implant surgery for the past 18 years. He was the first periodontist in the United States to use X-Guide dynamic navigated surgery technology.

Course Description: This lecture will explore the role that this breakthrough technology plays in the dental implant practice. Learn about dynamically guided surgery workflow: everything from digital planning, including CBCT DICOM data, STL files, and implant treatment planning all the way through to the navigated surgery and prosthesis. There will be a review of current literature comparing free-hand implant placement and static guides with dynamic guided implant placement. Several examples will be shown of cases treated with dynamic guided implant placement.
